African Institute of Science Administration and Commercial Studies (IAEC-TOGO)		Lomé, Togo
Bachelor of Science, Computer Science (Second Class Upper Honours).		Feb. 2022
Informatics Academe Singapore.		Singapore
International Diploma in Information Communication Technology (IDITC)		May 2019 CGPA: 3.25
Informatics Academy Singapore.		Singapore
Foundation In Computer Science (FCS)		Aug. 2018 CGPA: 3.00

PROJECT EXPERIENCE

Buy Light Front-End Development
Developed Front-End Development for Buy Light: Created a feature-rich and user-friendly front-end interface for an e-commerce platform, duplicating the functionality and design components of BuyPower.ng. Utilized cutting-edge web technology and responsive design concepts to provide consistent user experiences across multiple devices. To improve user engagement and satisfaction, I implemented easy navigation, and dynamic content presentation, all of which contribute to a smooth and visually appealing buying experience for online customers. Using React JS and Tailwind CSS.

Institute Management Software, Team of 2 (Finial year project)
Developed web-based institute management software using Python, Django, Django Rest framework and JavaScript capable of handling admission processes, online lectures, result dashboard, and student complain management, Admin dashboard, Student dashboard, lecturer dashboard.

Movie Recommendation Software,
Coded in Python, Flash framework. scribing data from IDMB using an API to get the data scribed that recommends movie based on users' preference.
